Steering away from the predictable grinder, the Norm 'Bottle Grinder' is not what you expect to see in a salt and pepper grinder. The form, shaped more like a bottle, cleverly tricks the user to encourage a more playful and experimental interaction with the product. The powerful ceramic mechanism makes the grinder easy to operate and perfect for trying out more than just salt and pepper including spices and grains, nuts, seeds or dried fruits.

About the Designer

Norm Architects was founded in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn. Norm works within residential architecture, commercial interiors, industrial design, photography, graphics and art direction. The name 'Norm' signifies the importance of drawing inspiration from norms and traditions within the fields of architecture and aesthetics, which have been refined throughout the centuries. Norm makes a virtue of focusing on quality, durability and timelessness. Their objective is to produce design which applies good materials and craftsmanship whilst embodying beauty, traditions, history and most importantly, timelessness.
